

SASMIT NALKANDE

Graphic Design And Web
Development

ABOUT ME

Passionate Python developer with expertise in web development frameworks, including Django, Flask, SKLearn, and Tkinter. hands-on experience in front-end technologies such as HTML, CSS, and JavaScript, with a solid foundation in database management using MySQL. Known for strong problem-solving and analytical skills, I thrive in collaborative team environments. Experienced in utilizing Git version control for efficient project management. Additionally, I possess graphic design skills using tools like Canva. Committed to delivering innovative solutions and continuously expanding my skill set to tackle new challenges.

PROJECTS

Web Development (Influverts)

Currently working with my friends on small project called influverts (SMMA Website) as Web Developer.
